

## Use your Crosby Flex Debit Card at the stores listed below and you will not need to submit a receipt!

IIAS (Inventory Information Approval System) technology makes it possible to track which of your purchases are considered eligible under your Medical Flexible Spending Account.

What this means:

- ✓ When you shop at a retailer listed below, items will be identified as either an “eligible” or “ineligible” FSA expense at the point of sale.
- ✓ Use your Flex Debit Card to pay for eligible items. You will be asked to use another payment method for ineligible items.
